

Work Areas

Upon arrival our installation team will confirm which room(s) they will start in and what order. We will agree an entrance and exit path to avoid contact. Every effort will be made to complete work in each room, we will always clean down and disinfect all hard surfaces at the end of the day.

We will agree a method of contacting you on site if anything needs to be discussed we will adhere to the social distancing protocol when discussing any matters preferably outside.

If you wish to completely isolate yourselves during our visit but wish something to be communicated to our installers please contact us on 01785 246516 and ask for the installations department, we shall call our operatives and discuss.

We will maintain the 2m distance unless Health & Safety in the work prevents this but if so we will use PPE in line with government guidance and for the shortest possible time.

We will provide our own refreshments and eat outside or in our vehicle. We will regularly wash and sanitize our hands using the government guidelines. If we have use of a designated wc we will provide our own facilities and clean the room, basin, taps door handles etc before and after use and at the end of the day.

We will record using video and photos the work as it is completed so as to avoid unnecessary revisits if a problem occurs.

Our installers will perform a final inspection and record it on a form which will be sent to you. Once agreed by yourself payment would be due using either card or bank transfer please.
